

## 1207C PORTABLE COLUMN SPEAKER SYSTEM

## DESCRIPTION

The ALTEC 1207C Portable Column Speaker System uses six 8" 403A Loudspeakers in a vertical array. This configuration is well known for its wide horizontal, narrow vertical acoustic pattern that permits outstanding audience coverage with minimal microphone feedback problems. The 1207C's 75-watt capability and wide frequency response provides intense reinforce-

ment of the human voice and musical instruments covering the same range.

The enclosure is covered with attractive, rugged vinyl and has heavy-duty edge bumpers. A retractable carrying handle adds to its portability.
